

GLUTEN-FREE PRODUCTS

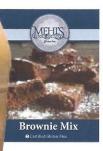

Mehl's Flour Company is the upper echelon of the gluten-free industry. Thousands of hours of research and development by one passionate and focused family has resulted in gluten-free products that are superior to national brands and indistinguishable from their wheat-based inspirations.

We have accomplished the impossible; Mehl's customers new and old routinely proclaim again and again: "*This is gluten-free?*"

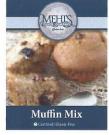

Mehl's Flour Company's production facility is certified to less than 10ppm (the highest industry standard) and we currently offer the following popular gluten-free products for retail rebranding or wholesale orders:

MEHL'S GLUTEN-FREE MIXES

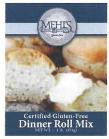

For more information on how to add Mehl's products to your current gluten-free offering contact Matthew Mehl – President/Owner at matthew.mehl@mehlsflour.com.

Developed by a Celiac family, the Mehl's Flour Company mission is to make delicious, high quality, affordable gluten-free food a reality for all people who require or desire a gluten-free lifestyle.

MEHL'S GLUTEN-FREE MIXES

Ingredients are Key

Mehl's Flour is reliant on two base ingredients: Sorghum and Garbonzo flour. Sorgum's neutral taste and high nutritional value combined with the excellent fiber and protein found in Garbonzo (Chick Pea) flour yields results that are not only gluten-free but nutritionally appealing to the health conscious.

In addition, Mehl's utilizes only the highest grade milling process for its sorghum and works exclusively with Archer Daniels Midland, one of the most reputable food processing organizations in the United States. As a result of utilizing optimal partners and ingredients, Mehl's produces the highest quality gluten-free products in the market today.

Our all-purpose gluten-free flour (sold individually, wholesale, or the base of our gluten-free mixes) compares to wheat flour not only in product results but also possesses the B vitamins and high fiber of wheat.

The Mehl family has achieved what no other national or global brand has been able to do; we have developed a gluten-free flour that tastes great, rises like wheat, and provides comparable nutritional value to wheat.

Contact us today to learn how your organization can take advantage of our revolutionary gluten-free products.
